

# BIOAG

Purified fulvic acid that maximizes plant potential. A must-have for all growers. Won't effect pH, or ppm and works in all systems. **CLEAN and POWERFUL!** Improves plant functions for better development of roots, flowers, flavors and fruits. Best use: Superior for indoor growing and all foliar sprays. Use on seeds/cuttings through flush!

**EASY TO USE! SUPERIOR RESULTS!**

Concentrated humic /fulvic soluble powder.

1 lb of Ful-Humix = 1-2 gallons of competitors liquids. Improves soil nutrient retention and uptake for strong, healthy plants! Best use: Regularly use in greenhouse and outdoor soils throughout season. Also, water into your compost pile.

**COST EFFECTIVE!**

Seven micronutrients critical for plant success, plus concentrated humic/fulvic powder for increased absorption and efficacy. Best use: Regularly use in greenhouse and outdoor and/or in compost tea.

**TRY IN COMPOST TEA!**

All the benefits of seaweed and micronutrients enhanced by concentrated humic/fulvic powder. Best use: Especially beneficial for key transitional periods, such as vegetative to bloom.

**PERFECT FOR KEY GROWTH TIMES!**

7 beneficial endo-associating species, plus BioAg's premium humic, and other bio-based additives. For stronger roots, faster growth and healthier plants. Cultured In Vivo. No Trichoderma! Use at planting.

**USE FOR ALL TRANSPLANTS**
